- Participated in Liverpool School of Architecture Winter school 2023-24
- Submitted designs to the Builder Architecture Competition.
- Wildly Wavering Workshop, Winter school 2022-23
- Architecture & Interior Design Workshops, DQ Labs
- Organised Prerana charity event
- Organised Sahitya, an inter-school literary fest

VOLUNTEER EXPERIENCE :

Architecture Design	Nov 2023
- Helped design a small trailer-like craft centre for the community's children in Cambourne, England.	
Graphic Design	June 2022 - June 2023
- Designed a logo for a children's science club in Cambourne, England, also helped in designing their minibus and, helped in designing posters for their events held throughout the year.	

Sustainability

2022

- Worked at the fix-it station during a sustainable clothes swap meet held by the university guild.
- Organised a runway using donated clothes with students from the university.

Wales Building Project

Dec 2022 - May 2022

- Volunteered to work as an intern for a scouting/ camping company as clients, designed and built a 4*4 square meter timber shelter for them in the forests of Wales, where I was also the team manager.

'International Change-maker Olympiad'

June 2019- March 2020

- I aimed to raise awareness for the visually challenged by converting books into accessible formats for the visually disabled and recorded many books into audio.

Samarthanam

June 2019- March 2020

Volunteer, 150+ hours

- Teaching subjects like art and culture to visually challenged children in the NGO
- Held collection drives for clothes that were used to create upcycled art with the children.

WORK EXPERIENCE :

Internship

- Span Associates, Bangalore, India

April 2025 - Oct 2025

- Created presentations, effectively translating client visions into a design mood board.
- Helped with 3D visualisation projects using SketchUp, enhancing client understanding and approval rates of complex architectural designs.
- Proactively sought and gained experience in AutoCAD drawings to enhance understanding of construction processes.

- Intern, KK Infra, Tiruvannamalai, India

Aug 2024 - Present

- Identified and developed a unique yoga retreat concept for KK Infra, capitalising on an untapped market for wellness tourism. • Subsequently, helped design and construct development for Anand Nilaya, creating fabrication plans and drawings for the real estate project.

- Intern, Aura, Bangalore, India

Aug 2023 & Sept 2024

- Spearheaded design initiatives for luxury residential interiors, contributing to an increase in client satisfaction scores through innovative and personalised design solutions.

- Intern, Studio Anagami, Bangalore, India

Aug 2022

- Contributed to the design of a residential project by producing sketches of sites.

Start-up

- Founder, Entrepreneurial Project: Urban Vertical Solutions, Bangalore, India

May 2023 - July 2023

- Founded a startup leveraging academic design work to prototype a Movable Vertical Farming System that supplied organic plants and vegetables for high-rise apartment residents.
- Engineered the system to dynamically optimise rooftop space freeing up over 60% of space for resident recreation (e.g., open cinema, play areas), successfully pitched the sustainable and scalable solution to real estate developers.

CAD S K I L L S : Skilled in Blender, Sketchup, AutoCAD, Photoshop, Procreate, Shapr3D, Enscape
